VOID CHECK RESOLUTION

WHEREAS, from time to time it becomes necessary for the Chief Financial Officer to void checks or stop payment on checks; and

WHEREAS, the Mayor and Council is desirous of keeping track of these checks by separate resolution; and

WHEREAS, the Chief Financial Officer has listed below checks to be voided and/or stopped payment.

NOW, THEREFORE, BE IT RESOLVED that the Mayor and Council of the Borough of Norwood, County of Bergen, State of New Jersey hereby authorizes the Chief Financial Officer to void and/or stop payment on those checks listed below:

Check Number	Fund	Amount
1595	Current	$ 163.50
1646	Current	$13,278.06
1677	Current	$ 4,134.94
1695	Current	$ 682.29
25	Dev. Escrow	$ 5,938.75
43	Trust	$ 790.00

BE IT FURTHER RESOLVED, that the Chief Financial Officer is hereby authorized to reissue new checks if necessary.

RESOLUTION OF APPRECIATION

WHEREAS, the Borough of Norwood annually celebrates the Fourth of July with a spectacular fireworks display; and

WHEREAS, the event draws thousands of people near and far; and

WHEREAS, the welfare and public safety of the participants falls to the Norwood Police Department and the volunteer emergency service organizations of the Borough; and

WHEREAS, this task would not be possible without the support of the surrounding towns.

NOW, THEREFORE, BE IT RESOLVED that the Mayor and Council hereby extends its most sincere appreciation to the emergency service volunteer organizations that participated from Closter, Demarest, Harrington Park, Northvale, Old Tappan and Rockleigh.

APPROVING CERTIFIED EMS LOSAP LIST FOR 2015 PROGRAM YEAR

WHEREAS, pursuant to N.J.S.A. 40A:14-191, emergency organizations participating in a LOSAP Program shall annually certify to the sponsoring agency a list of all volunteer members who have qualified for credit under the LOSAP Program for the previous year; and

WHEREAS, Daniel Polifroni, LOSAP Administrator submitted a certified list based on records maintained for Norwood EMS for the program year 2015; and

WHEREAS, the certified list has been posted by the department and no appeals have been filed.

NOW, THEREFORE, BE IT RESOLVED that the Mayor and Council of the Borough of Norwood, as the sponsoring agent of the LOSAP Program, approves the certified list submitted by the Norwood EMS.

AND, BE IT FURTHER RESOLVED that the Chief Financial Officer is hereby authorized to issue a check to Lincoln Financial for Investment on behalf of the individuals on the approved list.

BOROUGH OF NORWOOD
ORDINANCE NO. 16:19

An Ordinance Repealing Chapter 194 Titled "Soil Removal" and Amending Chapter 233 Titled "Zoning" in the Code of the Borough of Norwood, to Regulate Soil Movement.

WHEREAS, the Mayor and Council of the Borough of Norwood is authorized to create and from time to time modify land use regulations consistent with the Municipal Land Use Law (N.J.S.A. 40:55D-1 et seq.), and the purpose of this ordinance is to clarify and better define the existing regulations that apply to soil movement in the Borough.

NOW, THEREFORE, BE IT ORDAINED by the Mayor and Council of the Borough of Norwood as follows:

Section 1: Chapter 194 of the Code of the Borough of Norwood ("Code") titled "Soil Removal" is repealed.

Section 2: A new Article XVI (A) is added to Chapter 233 of the Code titled "Soil Movement" as follows:

Article XVI (A) Soil Movement

§ 233-123.3. Purpose and findings.

The purpose of this article is to prevent the unregulated and uncontrolled relocation, filling, excavation, and removal of soil by any person, which may result in conditions that are detrimental to the public safety, health, and general welfare, substantially hampering and deterring the efforts of the Borough to effectuate the general purpose of municipal planning. The continuation of the unregulated and uncontrolled relocation, filling, excavation, and removal of soil, and filling with unsuitable material, may cause serious and irreparable damage to the public welfare by causing soil erosion by water and wind; inadequate and improper surface water drainage; decrease in or destruction of the fertility of soil; removal of lateral support of abutting streets, lands and premises; creation of dust storms and mosquito breeding places; creation of dangerous depressions or pits; deterioration of property values; rendering of lands unfit or unsuitable to their most appropriate uses; and the creation of other factors and elements hampering and deterring the coordinated, adjusted, and harmonious physical development of the Borough.

§ 233-123.4. Definitions.

When used in this article, the following terms will have the meanings indicated:

BOARD

The Norwood Planning Board or the Norwood Zoning Board of Adjustment having jurisdiction over a development application requiring a major soil moving permit.

SOIL

Earth, sand, clay, lawn, gravel, humus, rock, or dirt, without regard to the presence or absence therein of organic matter, including any synthetic substance used as a substitute or in conjunction with soil.

LOT

Any parcel of land, or portion thereof, the boundary lines of which can be ascertained by reference to the maps and records, or either, in the office of the Tax Assessor of the Borough or in the office of the Bergen County Clerk. For the purposes of this article, a lot includes any contiguous parcels of land under common ownership that can be ascertained by reference to the maps and records, or either, in the office of the Tax Assessor of the Borough or in the office of the Bergen County Clerk.

MAJOR SOIL MOVING PERMIT

Any soil moving permit other than a minor soil moving permit as herein defined.

MINOR SOIL MOVING PERMIT

A permit for the movement of soil between 15 cubic yards and 500 cubic yards. Further, on a certified application to the Building Department, the Construction Official may grant a waiver for the movement of any amount of soil less than 15 cubic yards if any soil being brought to the site is clean and is being furnished by an individual or company that regularly deals in the provision of soil and can provide a certification that the material meets NJDEP standards for the application. The Borough Engineer or Construction Official also may waive the permit requirements if less than 15 cubic yards will be disturbed in the building or demolition of any structure and the Borough Engineer or Construction Official determines that this disturbance will not create drainage or grade deterioration.

MOVE

To dig, excavate, remove, deposit, place, fill, grade, regrade, level, transport, or otherwise alter or change the location or contours. This term does not include plowing, spading, cultivating, harrowing of soil, or any other operation usually and ordinarily associated with the tilling of soil for agricultural or horticultural purposes, landscaping, and gardening by homeowners or agents of homeowners, provided that it does not substantially alter existing drainage patterns.

OWNER

Any person owning any lot or having another interest therein permitting the exercise of effective possession thereof, including contract purchasers of any lot.

SOIL

Any earth, sand, clay, loam, gravel, humus, rock, or similar matter, including any synthetic substance used as a substitute for or in conjunction with soil.

SOIL MOVEMENT

The total combined volume of any soil removed and disposed of off-site; imported to the site from an off-site source, including topsoil; and redistributed within the site. This volume excludes soil excavation within the building footprint, provided the soil is either removed and disposed of off-site or redistributed on site to not change the elevation of the site by more than 12 inches in any location and the Borough Engineer or Construction Official determines this disturbance does not adversely affect grading, drainage, or environmentally sensitive areas.

SUITABLE FILL

The Borough Engineer will determine whether the fill is suitable or unsuitable to the particular location. Suitable materials include but are not limited to earth, clay, gravel, stone, dirt, etc.

TOPSOIL

Soil that, in its natural state, constitutes the top layer of earth and is composed of 2% or more, by weight, of organic matter and has the ability to support vegetation.

UNSUITABLE FILL

The Borough Engineer will determine whether the fill is suitable or unsuitable to the particular location. Unsuitable materials include, but are not limited to peat moss, organic material vegetation, leaves, tree stumps, wood chips, sawdust, chemical waste, tires, wooden logs, etc.

§ 223-123.5. Permit required.

A. No person may move, cause, allow, or permit to be moved any soil in or upon any lot in the Borough unless and until application has been made for a soil moving permit and the permit has been issued in accordance with the provisions of this article.

B. All applicants for minor or major site plan approval and minor or major subdivision approval in the Borough must comply with and be subject to this article.

C. An application for soil movement from within the Borough or from outside of the Borough to a site in Norwood will be preceded by a certified analysis of the material by a laboratory licensed in the State of New Jersey and on an approved laboratory list to be maintained by the Borough's construction office. The testing laboratory will also certify that the laboratory, its employees or agents physically went to the source site and took samples themselves for testing. The number and amount of samplings taken, as well as the designated location from where they are taken, will be subject to the review and supervision of the Borough Engineer.

D. All testing will be performed and analyzed under the Priority Pollutant + 40 Analysis Reduced Deliverable and will include testing for the following:

1. Volatiles organics.
2. Base neutrals and acid extractables (petroleum products).
3. Pesticides and PCBs.
4. Cyanide and phenols.
5. Metals: antimony, arsenic, beryllium, cadmium, chrome, copper, lead, mercury, nickel, selenium, silver, thallium, and zinc.

E. Once the certified testing laboratory indicates that the above tests were positive and do not exceed the NJDEP maximum limits, an applicant may make application for the movement of soil as outlined above.

F. This provision applies to both minor and major soil moving permits.

§ 223-123.6. Minor soil moving permits.

The procedure for applying for and issuance of a minor soil moving permit is as follows:

A. Applications for minor soil moving permits will be filed with the Borough Clerk and will be accompanied by the fee prescribed herein. Applications will be made in duplicate and will be forwarded, upon receipt by the Borough Clerk, to the Borough Engineer for his or her review and approval. The application will include the following:

1. The name and address of the applicant.
2. The lot and block numbers of the subject property, including a street address.
3. The name and address of the owner of the subject property.
4. The purpose or reason for the moving of the soil.
5. The estimated quantity in cubic yards of soil to be moved, including the volume of import, volume of export, and volume of soil moved within the site.
6. A statement as to how the moving of the soil will affect all trees with a diameter of six inches or more.
7. An impact statement regarding the effects that the proposed movement of soil will have on drainage and erosion.
8. Provide length, width, and depth dimensions for each area of excavation in feet.

B. The Borough Engineer, upon receipt of the application, will make a field investigation and will issue or deny the permit, giving his or her reasons for any denial in writing. The Borough Engineer will forward a copy of the approval letter to the Construction Department, Borough Clerk, the applicant, and will retain one copy on file. The Borough Engineer will classify any minor soil moving application as a major soil application if he or she determines that the application poses a substantial drainage or soil erosion problem or adversely affects the development of the abutting lot or lots. This determination will require the applicant to comply with all provisions governing major soil moving permits.

C. In addition to the foregoing, the Borough Engineer may, in his or her discretion, require other data pertinent to the application.

D. No stormwater improvements are required if:

1. No substantial change to grading within building setbacks is proposed.
2. All runoff is directed to the interior of the site.
3. All roof runoff is captured by leaders.
4. Improved lot coverage increases 500 square feet or less.

E. If stormwater improvements are required, the applicant will:

1. Construct an on-site stormwater management system to accommodate two inches of runoff for the area of the proposed improvements.
2. Ensure that no increase in runoff occurs on any adjoining property.

§ 223-123.7. Major soil moving permits.

The procedure for applying for and issuance of a major soil moving permit is as follows:

A. On forms prescribed and supplied by the Board, the applicant will set forth, in duplicate to the Board, with a copy to the Borough Engineer and Construction Department:

1. The name and address of the applicant.
2. The lot and block numbers of the subject property, including street address.
3. The name and address of the owner of the subject property.
4. The purpose or reason for moving the soil and whether it will be done in connection with a proposed subdivision or site plan; if so, the date the application for subdivision/site plan was made with the Board.
5. A detailed statement of the method or process to be employed for the proposed soil movement.
6. The proposed hours and time periods encompassing the soil movement.
7. The type and quantity in cubic yards of the soil to be moved.
8. In the case of removal or replacement of soil, the place to which the soil is to be removed, the quantity of soil to be removed or filled within and the proposed transportation route to be used within the Borough.
9. A signed affidavit by the applicant that he has placed or caused to be placed stakes at each corner of the subject premises, and that he has placed or caused to be placed grade stakes at the existing elevation points designated on the required topographical map clearly marked to indicate proposed soil cuts or fill.
10. A statement as to how the moving of the soil will affect all trees with a diameter of six inches or more.

B. Signatures. Applications will be signed by the applicant and the owner of the subject property indicating the owner's consent to the proposed soil movement.

C. Topographical map. Applications will be accompanied by eight prints of a topographical map of the lot upon which the proposed soil moving operations are to be conducted and of all surrounding lands within 100 feet of the perimeter of the lot, but not beyond the far side of an abutting street right-of-way, prepared and certified by a licensed professional engineer or land surveyor of the State of New Jersey. The map will be prepared on a scale of not less than one inch to 100 feet, will refer to United States Coast and Geodetic Survey data, and will show:

1. The dimensions of the lot, including distance and bearings, lot and block number of the lot and each lot in the surrounding lands within 100 feet.
2. The existing elevations of all lands on a one-hundred-foot grid layout.
3. The existing elevations of all buildings, structures, streets, streams, bodies of water, and natural or artificial watercourses.
4. All existing surface and subsurface water drainage conditions.
5. All wooded areas with references to all trees having a diameter of six inches or more at the base.
6. The limits of the area or areas within the lot in question within which the soil moving operations are to be conducted, with the existing elevations within these limits at intervals of not more than 100 feet.
7. The proposed final elevations at each point where existing elevations are to be altered.
8. Proposed slopes and lateral supports at the limits of the soil moving area.
9. Proposed provisions and facilities for surface water drainage and, where applicable, channels of any streams, natural or artificial bodies of water and watercourses, including detailed cross sections showing proposed channel widths, bank slopes, grade, and method of erosion control.

§ 223-123.8. Fees.

All of the following fees will be paid to the Municipal Clerk.

A. Application fee.

1. Minor soil moving application fee, 20 cubic yards to 400 cubic yards: $50.
2. Major soil moving application fee, over 400 cubic yards: $100.
3. The application fee will be nonrefundable, whether a permit is issued, denied or withdrawn.

B. Professional escrow fees.

1. Minor soil moving escrow fee is $500, but if review for stormwater management improvements are necessary, an additional $500 escrow is required.
2. Major soil moving escrow fee: $1,000.

§ 223-123.9. Escrow for site plan review and drainage.

Whenever application is made to construct or reconstruct a building or structure within the Borough, and the Building Inspector determines that the grade and drainage are in apparent need of review by the Borough Engineer, then $500 will be held in escrow for engineering review of the proposed building or property alteration. In addition, any time a request for a permit for demolition of a housing or commercial structure is made, and applicant does not wish to sign a waiver for future building, then the applicant will post an escrow with the Borough in the amount of $200 for engineering review to determine if a structure may be rebuilt upon the lot after demolition.

§ 223-123.10. Notice to abutting owners.

Upon receipt of the application, the Board will set a time and place for a hearing and will notify the applicant. The time fixed will not be less than 15 days after the notice is given to the applicant. The notice will be accompanied by a copy of a form letter, which the applicant must serve upon all property owners within 200 feet of the property to be affected by the application. Notice will be given either personally or by leaving a copy at the property owner's usual place of abode. If the property owners are nonresidents of the borough, notice may be given by sending a copy of the form letter via registered mail to the last known address of the property owner as shown on the most recent tax list of the borough. The applicant will present proof to the Mayor and Council at the hearing by affidavit or otherwise that notice has been given to each of the property owners entitled to receive notice.

§ 223-123.11. Consideration of application.

A. In considering the application, the Board will be guided by the following factors:

   1. Soil erosion by water and wind.
   2. Drainage.
   3. Soil fertility.
   4. Lateral support slopes and grades of abutting streets and land.
   5. Land values and uses.
   6. Any factor that is relevant to the coordinated, adjusted, and harmonious development of the Borough.

B. The Mayor and Council may require an agreement with the applicant concerning any or all of the above factors. If, after considering the above factors, the Mayor and Council determines that the proposed soil removal will not be detrimental to the health, safety, or welfare of the Borough or its inhabitants, it will issue the necessary permit. Otherwise it will deny the application and notify the applicant. Notice of the grant or denial of the application will be given to the applicant within a reasonable time after the application is filed.

§ 223-123.12. Payment of taxes; performance bond requirements.

A. Approval of a soil movement permit will not be given until the applicant has submitted proof that there are no taxes or assessments for local improvements due or delinquent on any property involved in the soil moving operation.

B. Before any permit is issued, the applicant will file with the Borough Clerk a bond executed by the applicant as principal and a surety company licensed to do business in the State of New Jersey as surety.

C. The amount of the bond will be determined at the rate of not less than ten cents ($0.10) per cubic yard and not in excess of fifty cents ($0.50) per cubic yard of the amount of soil to be moved; provided, however, that no bond may be less than the principal amount of two thousand dollars ($2,000). The Board or the Borough Engineer may request additional bonds for improvements shown on the soil moving application or plan, such as, but not limited to, the following: retaining walls, planting, drainage, erosion, control damages to hauling route, etc. In ascertaining the rate upon which to compute the amount of the bond, the Board or the Borough Engineer will take into consideration such factors as may bear upon the facility with which the proposed work may be performed, including but not limited to the type and character of soil; the extent of the area over which the soil moving operations are to be conducted; the extent and depth of the various cuts and fills; the extent to which the area of operations is wooded; the proximity of the proposed operations to streets, buildings, structures, natural or artificial streams or watercourses, and general drainage conditions.

D. Failure to post the required bond will result in a rescission of any conditional or unconditional approval or permit.

E. If a modification or amendment is sought to an approved soil moving permit, for which a performance bond has been posted, the applicant will first submit written consent of the surety on this bond to the Board. This consent will evidence the surety's approval of the proposed modification or amendments.

F. An application for release of a performance bond will be accompanied by an affidavit stating that the soil moving operation has been completed in accordance with the application and all plans, maps, and other data filed therewith, and in accordance with all resolutions and conditions adopted by the Board.

§ 223-123.13. Regulations.

Soil removal conducted under a permit issued under this chapter will be in accordance with the following regulations:

A. Operations will be so conducted that there will not be created any sharp declivities, pits, or depressions.

B. Land will be graded so as to conform to the approved contour lines and grades and will be cleared of debris.

C. The top layer of soil to a depth of six inches may not be removed from the premises but will be set aside and respread over the premises when the remainder of the soil has been removed.

D. Adequate measures must be taken to prevent erosion or the depositing of soil upon surrounding lands, streets or municipal facilities.

§ 223-123.14. Topsoil restrictions.

A. Whenever any person moves topsoil in or upon any lot, provision will be made for the storage of this topsoil within the boundary lines of the lot.

B. Except as hereinafter provided, all of the topsoil so stored will be uniformly replaced over the entire area or surface of the lot on or before the completion date set forth in the soil permit so that the final grade or grades of the replaced topsoil will be in accordance with the proposed final grades shown on the topographical map.

C. No person may remove to any point beyond the boundary lines of the lot any topsoil unless and until topsoil not inferior in quality to that to be removed is replaced uniformly to a depth of not less than six inches, measured from the proposed final grades as shown on the topographical map, over the entire area of the lot, excepting only the portions thereof that have become, since the date of filing of the topographical map, permanently covered by a building or structure, street pavement, curb, sidewalk, driveway, or other paved area, or by any body of water or waterway. No person may remove from the lot more topsoil than that comprising the surplus or excess remaining after the replacement of the topsoil as aforesaid.

Section 3: All ordinances or parts of ordinances that are inconsistent with the provisions of this ordinance are hereby repealed, but only to the extent of any inconsistencies.

Section 4: The provisions of this ordinance are severable. If any part of this ordinance is declared to be unconstitutional or invalid by any court, the remaining parts of this ordinance will remain in full force and effect.

Section 4: This ordinance will take effect upon passage and publication in accordance with N.J.S.A. 40:49-2(d), and copies will be served on the County Planning Board and the Borough's tax assessor within thirty (30) days of adoption.

Borough of Norwood
Ordinance No. 16:20

An Ordinance Amending Chapter 222 the Code of the Borough of Norwood Regulating Vehicles and Traffic to Amend the List of Streets on which Trucks Weighing in Excess of Four Tons are Excluded.

WHEREAS, the purpose of this ordinance is to better regulate traffic in the best interests of the citizens and motorists in the Borough of Norwood by amending the list of streets, or the parts of streets, on which trucks in excess of four tons are excluded, subject to the exceptions in the current ordinance, which remain unchanged.

NOW, THEREFORE, BE IT ORDAINED by the Mayor and Council of the Borough of Norwood as follows:

Section 1: Section 222-36 of the Code of the Borough of Norwood is amended to state as follows:

§222-36. Schedule V. Trucks Over Four Tons.

In accordance with the provisions of Section 222-11, no person may drive any truck in excess of four tons gross weight on any street in the Borough other than the following streets or portions of streets:

Name of Street	Location
Blanch Avenue	All
Broadway	All
Livingston Street	All
Piermont Road	All
Tappan Road	All
Chestnut Street	All
Oak Street	All
Maple Street	All
Walnut Street	All
Broad Street	All
Railroad Avenue	All
Hudson Avenue	East Side
Rockland Avenue	East Side

Section 2: All ordinances or parts of ordinances that are inconsistent with the provisions of this ordinance are hereby repealed, but only to the extent of any inconsistencies.

Section 3: The provisions of this ordinance are severable. If any part or parts of this ordinance is or are declared to be unconstitutional or invalid by any court, then the remaining parts of this ordinance will remain in full force and effect.

Section 4: This ordinance will take effect upon final approval and publication according to law.

BOROUGH OF NORWOOD
ORDINANCE NO. 16:21

An Ordinance Amending Chapter 233 the Code of the Borough of Norwood Titled "Zoning," Regarding Lot Coverage

WHEREAS, the Mayor and Council of the Borough of Norwood is authorized to create and from time to time modify land use regulations consistent with the Municipal Land Use Law (N.J.S.A. 40:55D-1 et seq.), and the purpose of this ordinance is to clarify and better define some of the existing regulations relating to lot coverage.

NOW, THEREFORE, BE IT ORDAINED by the Mayor and Council of the Borough of Norwood as follows:

Section 1: Section 233-3(B) of the Code of the Borough of Norwood ("Code") is amended to delete the current definitions of the terms building area, building coverage, improved lot coverage, lot coverage, and terrace, and to include or substitute the following definitions:

> Egress opening – An architectural feature of a building or structure used for egress from below grade facilities.
>
> Improved lot coverage – The percentage of lot area that is improved with principal and accessory buildings, structures, and uses, including but not limited to decks, driveways, tennis courts, parking areas, garages, walkways, patios, terraces, loading areas, hard surfaces, pools, or other man-made structures and improvements, both pervious and impervious. Detention or retention basins are excluded if they are constructed of natural materials.
>
> Lot coverage – The percentage of a lot that is covered or occupied by buildings measured on a horizontal planer around the periphery of the foundation(s) and including the area under the roof of any structure supported by columns, but not having walls, as measured around the extremities of the roof above the columns.

Terrace – A raised level area with vertical or sloping front or sides faced with masonry, turf, or the like.

Walkway – A ground-level, improved surface directly adjacent to a building or other improved surface that functions to allow pedestrian traffic movement from one improved surface or structure to another.

Window well – An architectural feature to allow light and air into below grade windows but not used for egress.

Section 2: Code Section 233-17 titled "Yards and Open Spaces" is amended in part as follows:

§233-17. Yards and Open Spaces.

A. [Remains unchanged].

B. [Subsection 1 remains unchanged].

2. Cornices, canopies, eaves, bay windows, window wells, balconies, landings, and other similar architectural features may project a maximum distance of not more than two feet into required yards. Front steps may project a maximum distance of not more than four feet into a required front yard.

[Subsections 3 to 5 remain unchanged].

6. Patios may project into any required rear yard of any residential lot located in the R-7.5 and R-10 zoning districts for a distance that is the lesser of one third of the required depth of the rear yard or one third of the depth of the rear yard when measured from its narrowest point, provided that all improvements on the lot otherwise comply with all of the other applicable regulations including, but not limited to Maximum Lot Coverage and Improved Lot Coverage, set forth in this Code.

7. Walkways of any residential lot located in the R-7.5 and R-10 zoning districts may project a maximum distance of not more than three feet into required yards, provided that the walkways are no wider than three feet, are not covered by a permanent roof, and all improvements on the lot otherwise comply with all of the other applicable regulations, including, but not limited to Maximum Lot Coverage and Improved Lot Coverage, set forth in this Code.

8. Driveways may project into front or side yards from the face of the primary structure or detached garage to the R.O.W., provided

> that all improvements on the lot otherwise comply with all of the other applicable regulations, including, but not limited to Maximum Lot Coverage and Improved Lot Coverage, set forth in this Code. The width of a driveway will be approximately sized based on the size of the garage it services, but no driveway may be wider than 10 feet for each car that can fit in the garage, excluding tandem parking.

Section 3: Any references in Code Sections 233-49, 233-50, 233-60, 233-120, and 233-121 to the term "building coverage" are amended to state "lot coverage."

Section 4: Code Chapter 233, Schedule A, Schedule of General Requirements for Topographic Slope Less Than 15%, is amended to state, under the heading "Maximum Improved Lot Coverage" 45% for both the R-7.5 and R-10 zoning districts.

Section 5: Code Chapter 233, Schedule B, Tables 1 to 6 of the Schedule of Area, Yard and Bulk Regulations in Areas of Steep Sloping Land, is amended to state the following under the heading "Maximum Improved Lot Coverage" for both the R-7.5 and R-10 zoning districts:

Schedule B Table 1 -- 43%

Schedule B Table 2 -- 40%

Schedule B Table 3 -- 38%

Schedule B Table 4 -- 36%

Schedule B Table 5 -- 34%

Schedule B Table 6 -- 32%

Section 6: All ordinances or parts of ordinances that are inconsistent with the provisions of this ordinance are hereby repealed, but only to the extent of any inconsistencies.

Section 7: The provisions of this ordinance are severable. If any part of this ordinance is declared to be unconstitutional or invalid by any court, the remaining parts of this ordinance will remain in full force and effect.

Section 8: This ordinance will take effect upon passage and publication in accordance with N.J.S.A. 40:49-2(d), and copies will be served on the County Planning Board and the Borough's tax assessor within thirty days of adoption.
